

ScanStation

NEW SOFTWARE
VERSION 9

Touch the future of lab automation

ScanStation® goes beyond the limits of real-time colony counting.
Digitize your microbiological analyses and gain in time and accuracy.

interscience

NEW

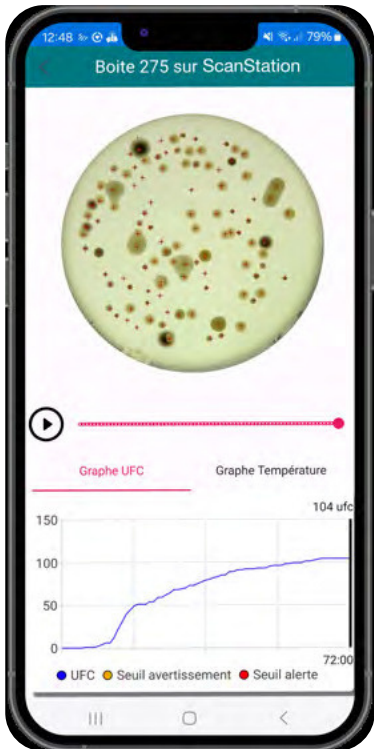

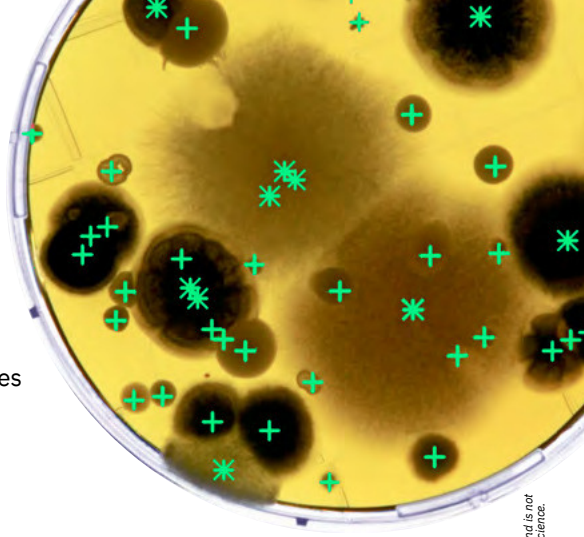

Advanced counting quality

- Improved counting algorithm by image fusion (patented) and optimization of edge detection
- Mold detection by AI neural network
- Analysis of filtration membranes of all types

Improved user experience

NEW

- Statistical result visualization*
- Instant notifications on alerts: temperature changes, counting thresholds exceeded*
- Automatic incubation cycle launch*

*Additional module

NEW

Remote connectivity

- Mobile app and remote results viewing*
- Remote access via the network for results validation*
- LIMS connection: in web service or file sharing*

NEW

Increased security

- Reinforced validation of results with electronic signatures*
- Secure remote access and encrypted backups*
- ScanStation® auto-test in 78 points
