SPECIALIST OFF-SITE STORAGE SOLUTIONS

Ocon Chemicals provide secure, specialist storage solutions for Life Science companies seeking to move pallet storage off-site and free up valuable floor space.

We transport and store chemicals at our 3 secure, camera monitored warehousing facilities. We offer in excess of 10,000 sq. ft. of pallet storage space and manage a broad range of hazardous and non-hazardous products.

Ocon's team of logistics, stock management, and customer service professionals has extensive combined experience of designing and delivering efficient, affordable solutions to meet the specific requirements of individual companies - large and small. We provide transparent, predictable pricing based on space requirements along with next day delivery guarantees.

As an ISO 9001 accredited company, we operate according to stringent established logistics and stock management processes. We run our warehousing facilities in full compliance with GMP, GDP, GWP standards and ADR regulations. All of our drivers are ADR certified and our inhouse DGSA guarantees compliance with health and safety and dangerous good legislation.

ABOUT OCON

Established in 1981, Ocon Chemicals is a leading Irish supplier of chemicals, glassware, consumables, bulk ingredients/raw materials, and laboratory equipment for a wide range of manufacturing and laboratory environments in Ireland and UK. Our broad portfolio of high-quality products and our service solutions have evolved over the years to meet the current and emerging needs of our customers and support their manufacturing and laboratory analysis agendas.

Ocon Chemicals has grown significantly over the years, but our customer centric values remain unchanged. We leverage our long-standing, global supplier network and our team's collective expertise to deliver quality products backed by an innovative suite of service options including technical support, expert product sourcing, specialised storage and transportation, vendor managed inventory, laboratory chemical waste collection and disposal, bulk raw material and ingdeitnt socuring, storage and delivery.
