About us...

Established over 90 years ago within the NHS and trading as a private limited company for the past 20 years, SOUTHERN GROUP LABORATORY (SGL) is an independent media manufacturer that offers an extensive range of pre-prepared bottled media, plated media, stains and reagents.

Still a major supplier of prepared microbiological media to the National Health Service, SGL also supplies media to a wide range of industries including pharmaceutical, cosmetic, water, food and confectionery companies.

In our 'state-of-the-art' manufacturing facility in Corby, Northants, we have invested in equipment and facilities to meet the exacting standards of quality and customer service being demanded by today's microbiologists. Both bottled media and pre-poured plates are manufactured in clean room environments under precisely-controlled conditions to ensure optimal performance, quality and maximum shelf life for all our media products. Factors that affect media stability, such as exposure to light, temperature variation and humidity, are all carefully controlled during the manufacturing process, ensuring that our products are of the highest quality available.

- All activities are certified to ISO 9001: 2008 with quality control accredited by UKAS to EN ISO/IEC 17025:2005, ensuring consistent high quality products with continual improvement of processes and services in line with customer requirements
- All media production takes place in a clean room environment
- Our poured plate production facility has clean-rooms validated to: ISO 14644-1 (Class 7), EU GMP (Grade C) and all poured plate manufacturing is on fully automated production lines
- GMP and GLP techniques employed throughout all production and laboratory areas
- Rigorous QC examination with certificates available online

As an independent media producer we have the ability to manufacture in small batches and as such we can supply any commercial or custom-specified formulations to order. So, whether you require a completely new medium, or simply a different pack or fill-size, please call our Customer Services Department on **01536 403815**.
